Facts for Kids About Covid-19

- Covid-19 is a new virus.
- According to doctors and scientists, most people will be okay, especially kids.
- But some people can get really sick.

There are some things you can do to help you and others stay safe and healthy:

Cough or sneeze into a tissue or the bend of your elbow. Throw the tissue in the trash right away.

Keep your hands away from your mouth, nose and eyes.

Wash your hands with soap and water for at least 20 seconds. Singing the “Happy Birthday” song twice will help you know how long to wash.
